V-Spray shape is just like a electric power water blaster, using the power and water pressure in your garden hose.

Award winning Australian Inventor Norm Ladson designed the V-spray to deliver maximum pressure from a garden hose for quicker and faster cleaning

The wand lets you get to problems cleaning areas & the on/off switch saves water & going back to hose tap.

F/L 3110639 Available Bunnings \$24-95  
In watering bay near hose fittings.
